Rationale

Road crashes are the major cause of accidental death of young children and adolescents in New South Wales.

Schools have the major responsibility for the education of students. Education can be an effective means of influencing the development of positive attitudes and safe behaviours in children and adolescents.

We will also identify other appropriate KLA's where road safety education can be included.

When designing our Road Safety Education Program we will take into consideration the local environment and actively seek to involve the community in improving road safety in the local area.
